RACING AT THE FOUR STATE

There is more interest being taken this year in harness races in this particular section of country than in a number of years past and the promise is made by the harness-horse man that events of exceptional interest will be given in the different sections of the intermountain country.

Recognizing this fact, the management of the Four-State Fair has arranged a splendid program of trotting races. A number of strings of good horses are in training for the Ogden events. Harness events have been scheduled for Montpelier, Pocatello and Boise, Idaho, and Logan will also hang up purses for such racing. These events will be held prior to the Four State Fair, so that all the racers in those meetings will be on hand when the fair at Ogden opens.

The race program for the Four-State Fair is as follows:

First Day, Friday, September 22nd, 1911. No. 1—2:17 class, trot or pace, purse \$300.

Second Day, Saturday, September 23rd, 1911. No. 2—2:40 class, trot or pace, purse \$300.

Third Day, Monday, September 25th, 1911. No. 3—2:20 class, trot or pace, purse \$300.

Fourth Day, Tuesday, September 26th, 1911. No. 4—Free-for-all, trot or pace, purse \$400.

Fifth Day, Wednesday, September 27th, 1911. No. 5—3:00 class, trot or pace, purse \$300.

Sixth Day, Thursday, September 28th, 1911. No. 6—2:25 class, trot or pace, purse \$300.

Seventh Day, Friday, September 29th, 1911. No. 7—2:30 class, trot or pace, purse \$300.

Eighth Day, Saturday, September 30th, 1911. No. 8—Race to be named later, purse \$300.

No one connected with the Harriman lines in this city would express any opinion on the strike situation this morning, the uncertainty of silence enshrouding the shops and offices which would be affected should the call for a strike be made.

Not more than a dozen men worked in the shops today, the main force of men leaving last night. The shops will not be opened for regular work until Tuesday morning, because of Monday being a holiday.

The officials of the company, while not expressing themselves in a definite manner, seem to be of the opinion that further conferences will be held by the general officials of the company before any strike call will be considered. This appears to be the view of the employees also, although it is apparently not based on authoritative information. Should there be a call for a strike, it will be sent out simultaneously to all the points along the Harriman line and will affect about 25,000 men.

WHEAT AND CORN AT HIGHER PRICES

(Continued From Page One.)

Chicago, Sept. 2.—Bullish sentiment held the lead today in the wheat market, owing to the strength of European returns from Russia and light offerings by that country formed the basis of much of the firmness. Fine harvest weather in the Canadian Northwest exerted some influence in favor of the bears, but the effect was only temporary. Opening prices were unchanged to 1-8 higher. December started at 91-1/2 to 94-5/8; no difference from the market as a whole, dipped to 94-3/8-1/2 and then rose to 94-7/8-9/8.

A bulge of four cents at Berlin did considerable to lift prices to a still higher level. The strained situation regarding Morocco was a decided factor. Closing figures were strong with December 1-3/8 cents net higher at 95-7/8.

Excellent shipping demand gave a strong tone to corn.

The seaboard reported nearly all the exporters in the market. December opened a shade to 1-8 up at 63-1/4 to 63-1/2-1/4, touched 63-1/4-1/4, and advanced to 63-3/8-1/4.

Free deliveries weakened oats. There was a good deal of selling on the part of the longs. December started unchanged to 1-8 higher at 45-7/8 to 46, and fell to 45-5/8.

Big decreases in hard stocks helped prices for all hog products. Initial sales were 2-1/2 to 12-1/2 cents dearer with January delivery 16-30 for pork, 9-30 to 9-32-1/2 for lard and 8-42-1/2 to 8-44-1/2 for ribs.

Dry weather in Kansas led to a further advance in corn. The close was strong, 1-3/8-1/4 net higher at 54-5/8.

Rye, No. 2, 85-5/8-1/2. Barley, 65-1/2-1/4. Clover, 13-00-19-00. Timothy, 12-50-14-50.

New York Money. New York, Sept. 2.—Close: Prime mercantile paper, sterling exchange, steady, with actual business in bankers' bills at 4-3/4 for sixty day bills, and at 4-8/8 for demand. Commercial bills, 4-3/4.

Sugar and Coffee. New York, Sept. 2.—Coffee—Spot, quiet. Sugar, grain, cotton and provisions markets closed.

ASSIGNMENT OF TEACHERS

Board of Education Defines the Boundary Lines of the Lorin Farr School District—Meeting of Principals and Their Teachers Held This Afternoon.

The principals and teachers of the Ogden City Public school are returning and preparing for work. This morning at 10 o'clock the superintendent, principals and supervisors met in their first session to organize the school system. The assignment of teachers was announced by the superintendent, and the principals are preparing to meet their respective schools this afternoon at 4 o'clock in the High School assembly hall, where they will organize their building forces, preparatory to the opening of schools next Tuesday morning.

There never was a more prosperous outlook for a good school year than now. The Lorin Farr school is completed and the cement walks laid, ready for use. The grading is being carried on rapidly around the building. The building, itself, is one that any city might be proud of. It is modern and thoroughly up to date in every respect. There is nothing shabby or shoddy in its construction, and every convenience has been provided. It is thoroughly sanitary and ought to be absolute proof against disease. The boundary lines were announced as follows:

Lorin Farr school: North boundary line, Ogden river and running south along the center of Monroe avenue to Twenty-second street, the east along the center of Twenty-second street one block to Quincy avenue, then south along the center of Quincy avenue to Twenty-fifth street, then east along the center of Twenty-fifth street to Harrison avenue, then south along the center of Harrison avenue to the center of Twenty-ninth street.

There have been many parents outside of this district that have asked the privilege of sending their children to the Lorin Farr school, but it is the intention to have children attend the school in their own district.

It often happens that a child on one side of the street may have a playmate on the other side of the street, and the boundary line may separate these two children. There will also be some people who will say that their children have always attended the Madison or Quincy school and would like to continue there. The school board recognizes the truth of this statement, but a new school has been built and a new boundary must be established. This, necessarily, will break up old associations to some extent, and it often occurs that after a child has been assigned in a new building against his will, that he would not return to the old school after he has been in the new for a week or two. A child that has the ability to become attached to one school, can also become attached to another.

PROMINENT MAN KILLS HIMSELF

New York, Sept. 2.—Daniel E. Garrison, Jr., of St. Louis, vice president of the Corrugated Metal company of that city, was found dead today in his room at the Waldorf-Astoria with a bullet wound through his head. The hotel people say that he committed suicide.

Mr. Garrison arrived here yesterday with his father, who is president of the company, and his son, Daniel E. Garrison. He was seen alive about 10 o'clock last night, when he went to his room. This morning one of the employees of the hotel heard a shot in Mr. Garrison's room and found him dead.

The suicide was 42 years old and resided in St. Louis.

Mr. Garrison was to have been married here in October to Miss Mary Williams of New York, who is at present at Rye Beach, N. H.

Two letters lay beside him. In one he told his father that he would rather die than suffer from kidney trouble, and that it would be better to his fiancée to marry her in his present state of health. The other letter was written by the girl he expected to marry and urged him to "cheer up," and think of "the better days to come."

STRIKE FADING (Continued From Page One.)

Los Angeles, Sparks, Nev., Omaha, North Platte, Pocatello, Kansas City and Portland, Ore., but Kruttschnitt's departure may make it advisable to call this meeting in some other city.

The labor leaders are holding another conference today. J. W. Elton, acting spokesman for the international presidents of the shop crafts, said today that he felt positive that the general committee would not recede from the determination to have the Federation recognized or to strike.

CONCILIATORY IN CHICAGO. Chicago, Sept. 2.—Notwithstanding refusals by railroad officials to deal with any general federation of shop employees, labor leaders in Chicago were inclined to believe that no strike is imminent.

For the employees, sentiment was voiced by Secretary Kramer, of the International Brotherhood of Blacksmiths and Helpers. He said:

"It can be truthfully stated that negotiations are still pending. Until peace efforts have ceased, I see no reason for forecasting results."

Referring particularly to the situation on the Illinois Central, Mr. Kramer added:

"We believe that we shall be successful in maintaining peace. In asking President Markham for another conference, it is our purpose to present to him additional reasons why it would be advisable for the company to deal with a federation of its mechanics."

"While the international officers now in Chicago have full authority to direct matters as they see fit, it is the intention to continue to use conciliatory tactics."

Thirty days' notice of a desire to change the nature of the shopmen's contracts on the Illinois Central will, it is expected, afford time for bringing about less strained relations between the employees and the railroad officials. There is also a hope that the example thus set may have a powerful effect indirectly as to the situation on other roads.

In addition to the 8,000 shopmen involved on the Illinois Central, there are 25,000 affected on the Southern Pacific and allied lines, and the issues have been made nearly, if not quite, as acute on the Northwestern and the Iowa and the Chicago, Milwaukee & St. Paul.

NO THIRTY-DAY NOTICE. Chicago, Sept. 2.—Emphatic denial was made today by officers of the Illinois Central shopmen's unions that a thirty-day notice had been given the railroad to abrogate the existing wages. At a meeting of the labor chiefs it was decided that no such notice was necessary.

President McCrory of the federation of employees of the Illinois Central railroad, said:

"The report that the grand lodge officers recommended that a thirty-day notice be given the railroad of the question was asked in regard to our demands is untrue. We considered we have given the railroad sixty days' notice, as our letter of June 10 fully sets forth these facts and would be considered ample notice to any fair-minded person. At our conference with President Markham yesterday the question was asked if a thirty-day notice was given, if he would then agree to meet the officers of the federation in conference, and he replied he would not. In view of this, there would be no use of giving any further notice."

"The situation is this: We have met President Markham, who appears to be the only official of the road with authority to act in the matter, and he has declined to recognize our federated body. This is the only question involved at present. The meetings of our officers and committee which have been in progress all week while negotiations for peace were being planned, have been adjourned and the men have gone home."

"I cannot say when another meeting will be called. The officers of the federated body and representatives of the grand lodge will remain on the ground, and are prepared to deal with any question that may arise. I cannot say what the next move will be. It has not been decided whether we will act independently in the Illinois Central case or follow the action to be

taken by the shopmen on the Harriman lines. In the meantime we expect to do everything we can to avoid a strike. We may have a number of conferences with President Markham before we are through, but we have not arranged for any yet."

AUTO MEN DESTROY ADVERTISING SIGNS

Minneapolis, N. Y., Sept. 2.—Armed with hatchets and axes, a squad of automobilists representing the Automobile club of America, is touring Long Island, destroying thousands of advertising signs which have been erected along the public highways. The crusade extends throughout the state and it was made possible by a law recently passed, making it a misdemeanor for a person to place advertising signs along the public roads.

WHITE MAY MARRY THE GIRL

C. H. White, arrested in Salt Lake City Thursday as the abductor of 15-year-old Charlotte Bremer of Stewart, Idaho, has partly vindicated himself for his supposed criminal action, and no serious charge may be brought against him. The girl's parents have signified their intention not to prosecute White.

When interviewed in his cell at the city prison this morning, White said that he had been in the company of the Bremer girl for several weeks and that the parents of the girl had never made any objections. White said, "I have been selling maps and I had to go to Salt Lake City to see about a new supply. Charlotte wanted to go along, more for the ride than anything else, and I told her she could go, if her parents did not object. She met me at the Bamberger depot and I purchased two round-trip tickets. I had no intention of staying in Salt Lake over night. When we were walking about the city, Charlotte insisted that I buy her a new dress. She said she wanted a longer dress, so that she would look older. We went into a store and I paid for a dress. After we had the dress, she wanted to put it on, so I said she would have to get a room somewhere. We went to a rooming house and asked the woman if we could get a room. Charlotte went into the room to change dresses, and I waited on the outside. I had no intention of entering the room."

"I have always treated the girl in the most respectful manner and have considered the difference in our ages as a bar to my making any advances that might in any way be construed as objectionable by her parents. I have considered marrying the girl, but I understand that I could do this only with the consent of her parents, and I expect to take the matter up with them as soon as this affair is settled."

White has been making his home in this city for the past three months and says he owns a farm near Five Points and another in Idaho. While the man is still held at the city prison, it is likely that the affair will be settled without any court action.

BIG MONEY FOR THE FIGHTERS

London, Sept. 2.—Jack Johnson will get \$30,000 and Bombardier Wells will receive \$10,000 for fighting at Earl's Court October 2, according to the contract drawn up by James White, the promoter.

The fighters will receive the money win, lose or draw. The moving-picture rights have played an important part in financing the fight. The sole rights have been sold for \$100,000, payable \$55,000 cash down and \$45,000 an hour before the time set for the men to meet. Besides, White is to get a 50 per cent royalty on all the company's receipts after it takes in \$100,000.

HE IS FINED FOR HOUNDING A MAN

New York, Sept. 2.—For hounding a man on account of a theft committed five years ago, a theft which had been followed by a plea of guilty and suspension of sentence, Police Judge Butts today held William F. Delmague guilty of disorderly conduct and put him under a bond of \$1,000 for six months.

Court ruled that Jacob F. Helz, who stole \$5 worth of meat from Delmague, then his employer, had been hounded by Delmague for four years of upright living and that Delmague was culpable in having caused Helz to lose several positions on account of the old offense.

EARLE MARRIES THIRD AFFINITY

Monroe, N. Y., Sept. 2.—Recent reports that Ferdinand Pinney Earle, of "affinity" fame, had been married again in Europe, are confirmed by the receipt of letters from the bride, who is now in Naples with her bride, who was Miss Dorothy Elbert Stewart, of Wokingham, England. The marriage took place by special license late in June.

Before their return to Earle's country home here, the pair will journey through India, the Far East and Japan, thence across America, taking in the Grand Canyon and Yellowstone Park.

NINETY MINUTES OF SNEEZING.

Chicago, Sept. 2.—Miss Nellie de Onzo, 17 years old, is under the care of physicians in a hospital as a result of a 90-minute spell of sneezing. Her experience was due to sniffing a which a young man, in a spirit of fun, scattered near her while she was singing.

MAKING NEW FORESTS IN THE WEST

Assistant District Forester J. M. Fetherolf, in charge of the planting department of the forest service, gives interesting information regarding the culture of forest trees. The gentleman is well versed in this particular line of nursery work and is so well known that he is frequently quoted in German magazines treating of forests. There are three nurseries in the Fourth District, one being in the Wasatch forest, near Salt Lake, another at Pocatello, Idaho, and the third one being in the Uintah forest, near Heber City.

Mr. Fetherolf has just returned from an extended inspection of the nurseries and he reports them in fine condition. He states that in these nurseries, small trees are grown for forest planting under quite extensive methods. The methods, he says, correspond roughly to those used in fish culture. Seed is sown in prepared beds and the young trees are protected and cared for until they become large enough for field planting, after which they are distributed for use where conditions have proved to be favorable for them. The nurseries of the district contain the beginning of about 13,000,000 trees, of which 2,000,000 are ready for planting this fall.

OLD FOLKS MUST PAY TO SEE TAFT

Utah venison, the best that can be found in the mountain ranges, by a special party of hunters to be sent out by the Salt Lake Commercial club, will grace the board at the Taft banquet, according to plans which are now being laid.

Fred W. Chambers, state fish and game commissioner, will be asked by the club to stand sponsor for the venison. Under his direction, hunters will be dispatched October 1, which is the opening of the hunting season for larger game, to those parts of the state where the best venison is to be found and half a dozen bucks will be brought in at least several days in advance of the banquet, which will be held the night of October 5. Several days are necessary for the proper treatment of the meat.

Venison, however, will not be the only article on the bill of fare. The best culinary genius the town affords will work days in advance on the menu plans. Among other things will be a specially concocted Taft cocktail, one that has never been used before.

"We intend to make this banquet the greatest affair of its kind ever tendered anyone west of New York City," said Joseph E. Caine, secretary of the club, yesterday. "The club's banquet committee will meet early next week to outline its plan. No expense will be spared and nothing will be overlooked that might add a distinctive touch."

"The attendance will be limited to 300, with preference being given to members of the Commercial club."

The already beautiful dining room at the new club house will be specially dressed for this occasion.

President Taft will address the old folks of Utah in the Salt Lake Tabernacle, between 11 and 12 o'clock, on October 5, the day of his visit to Salt Lake.

This portion of the program was decided upon at a meeting of the old folks central committee held at the office of President Bishop C. W. Tibble yesterday morning, the general committee appointed to arrange for the President's visit having placed that hour at the disposal of the old folks committee.

Owing to the usual congestion attendant upon the heavy conference travel, which will be even heavier because of Taft's visit, it was decided not to ask the railroads to extend their usual courtesy of transporting the old folks free.

As special rates will be in force then it is not believed the elimination of this feature will materially detract from the number of aged persons who will accept the committee's invitation to meet the President.

Preparations will be made to handle at least 10,000 persons over seventy years of age. Badges will be provided showing the age of the wearer and only these will be admitted to the Tabernacle for the President's address.

Escorts will not be allowed and the committee will request persons too infirm or aged to look after themselves to refrain from accepting the invitation.

DROWNED IN THE MAUMEE RIVER

Toledo, Ohio, Sept. 2.—Seven men were drowned in the Maumee river, about one mile north of the Red Can buoy, at 9:30 o'clock, when the 35-foot launch Nemo, owned by Michael Mayer, was struck by the 500-foot freighter Philip Minch, inbound for the C. H. & D. docks. Ten drowned.

HARRY BACH, city councilman, JAMES WISLER, superintendent of waterworks, THOMAS PURCELL, 48, master mechanic at the waterworks plant, FRED SHANE, secretary of Service Director Cowell, WILLIAM BLATT, waterworks inpector, WILLIAM CARROLL, 38, bookkeeper at waterworks, RUDOLPH YUNKER, aged 30.

CATTLE FOREMAN COMMITS SUICIDE

MILES CITY, Mont., Sept. 1.—The body of Fred Hinkley, foreman for the John T. Murphy's cattle outfit, was found this afternoon on the Fort Kough reservation. A bullet wound was found in the right temple that passed clear through his head. It is considered a plain case of suicide. The body lay on the back with a revolver under the left hand.
